Bridget G. Bortz, O.D.

Patient Name: _____ Acct #: _____

Important Information About Your Routine Eye Exam

In some cases, routine vision exams are covered by insurance. However, if you receive certain additional services during your visit, you may have to pay an out-of-pocket cost such as a copay, coinsurance, or deductible. For the most accurate information regarding your benefit coverage, please contact your insurance company directly. Your vision and eye health are our highest priorities, and we look forward to providing you with quality care and services.

Services that could lead to additional charges during your visit include, but are not limited to:

- Contact lens evaluations and fitting fees
- Diabetic eye exams including dilated fundus exam and retinal photography
- Refraction – the determination of a glasses prescription
- Glaucoma testing including visual field tests and optic nerve scans

I understand that not all services I receive may be covered by my insurance plan and/or may apply towards my deductible. Additional services or procedures performed at my request or at the provider's recommendation may result in an out-of-pocket cost to me based on the contract between myself and my insurance plan. ACCOUNTS 60 DAYS PAST DUE ARE SUBJECT TO A $25 LATE FEE. I acknowledge that I am responsible for these out-of-pocket expenses.
